Tezu, Mar 1: Fun and thrill marked the National Science Day celebrations as the Bamboosa Library, Tezu, organised an exciting session of science-fun activities for school students here on Friday.

The session was conducted by well-known science teacher-educator and solar energy expert Bappu Deshmukh from Pondicherry. With a range of common daily-use items like coins, water, a ball, matchstick etc, supported by video-clips, he guided the students to discover and explore various scientific phenomena.

A keenly contested popular science quiz for class 5 students was also conducted by the Bamboosa Library team, to stimulate their curiosity and general awareness. The class 5 students, who have just commenced their vacation, were invited to form teams of 2 members, to enable a large number of students to participate in the quiz.

The team of Rinzingliang Tayang (VKV Tafrogam) and Srinilu Malo (VKV Sunpura) won the first prize, closely followed by Dhamisi Dele and Deme Mipi (both from VKV Sunpura) winning the second prize. Doreen Lisa Padu (VKV Sunpura) and Kenu Padu (VKV Tezu) secured the third prize. Teams from the Police Welfare School, Tezu and TCM Govt UP School were awarded consolation prizes.

The entire celebration was a joyous and stimulating time for students, parents and the library volunteers, the Coordinator of Lohit Youth Library Network, S Mundayoor informed.
